Summary

I am junior in web development , and still studying at university ,

I am interested in website interface design , and have Knowledge of
(Back-end)

Education

Kafr El-Sheikh University
Computer Science, Computer Software Engineering
Sep 2019 - Jun 2023

I am currently a fourth-year student at the Faculty of Computers and Information, Software Engineering
Department, at Kafr El-Sheikh University. Throughout my academic journey, I have gained a strong
foundation in software engineering concepts, programming languages, algorithms, data structures, and
database management systems.

As part of my curriculum, I have completed several projects that involved designing and developing
various software applications, including web-based systems, desktop software. These projects have
helped me improve my problem-solving skills, teamwork, and communication abilities.

Skills
